

Quality Management

Is your quality system as good as it can be? Are you "audit proof?"

WHAT ARE THE BENEFITS?

WHO ATTENDS?

WHAT'S THE FOCUS?

WHAT'S THE COMMITMENT?

Join a group of successful quality management decision-makers to

- Learn via best-practice presentations and benchmarking tours.
- Gain from candid critiques in a confidential forum.
- Receive advice from peers on your critical problems.

Individuals who have significant decision-making responsibility in Quality Assurance Management, Engineers, Auditors, Quality System Specialists, and Compliance Managers for local manufacturing firms.

System and process improvements and effective leadership tactics for creating effective supply chains.

Topics may include:

- Regulated environments
- Current international standards issues
- Supplier quality best practices
- Quality metrics and measures
- Plant benchmarking
- Industry Auditing Trends

Members

- Attend a half-day monthly presentation/discussion/tour.
- Contribute and share their experiences.
- Host one program per year.

You can't afford to miss out any longer!
