***Get the best results by removing guesswork and emotion!***

Is your path to solving problems riddled with silos, endless analysis, ownership issues, and personal bias? There are several tools that will help you get to the root cause of an issue and know with certainty that the solution is the right one. Six Sigma is one methodology that will ensure you address and evaluate your options with discipline. Hear from our presenters how they use tools to eliminate issues for good.

## OMG Electronic Chemicals

Lee Burger, Technology Manager

## LORAM

David Badger, CI Director

## Eaton

Bill Kaelin, Quality Director

*Moderated by:*

**Ron Halliday**, Lean Six Sigma Black Belt

Lean Sigma Specialists

***Reward your employees for a job well done –  
send them to a Manufacturers Alliance educational program.  
Pre-registration required!***
