

Setup Reduction

Excellent workshop for machine operators!

Send teams to learn how to reduce setup times and eliminate waste on virtually any operation or machine

Application of the **Setup Reduction** process will identify many forms of waste. It is the elimination of these wastes that will allow a company to realize the benefits of implementing this approach.

These benefits include:

- Increased equipment availability
- Increased operator efficiency
- Reduction in overtime
- Increased product mix flexibility
- Reduced inventories

Participants will learn the tools necessary to conduct a setup reduction event. These tools will then be applied to a simulated process, where they will identify wastes, make improvements and track their progress. Various options to “sustain the gains” achieved during the process will also be covered.

Who Should Attend: Line leaders, supervisors, machine operators or any individuals who have the desire to gain knowledge of the process of reducing setup times on virtually any operation or machine.

Thursday, April 26, 2012

8:30 a.m. – 4:30 p.m.

Fee: MA Members - \$ 319 MA Non-Members - \$ 419
Receive a 10% discount if you register 10 days prior to the event

Location: **Manufacturers Alliance Training Center**
8421 Wayzata Blvd, Suite 190
Golden Valley, MN 55426
