

# A3 Strategy Deployment

- The best method for effective plan execution

*This course is part of our "Building High Performance Leaders" series.*

*Also consider signing up for "Intro to A3 Problem Solving".*

This proven and powerful approach is used by Toyota and many other global companies. When applied to strategy deployment, A3's enable any organization to focus and align its resources to get the right things done at the right time by the right people. A participative approach is used to transform a vision into actionable projects at all levels of the organization. Strategies are cascaded into effective annual plans that provide guidance and feedback for every employee, with an expectation of continuous improvement.

## Course Objectives

Through case studies, real-life experience and active participation, the workshop presents A3 strategy and its connection to daily activities. A3's are presented as an effective solution to maintain consistent focus on goals, to identify any gaps between plan and actual and to generate corrective actions when needed.

- ◆ Demonstrate A3 thinking applied to Strategy Deployment
- ◆ Create an A3 Strategy with risk assessment
- ◆ Illustrate the use of tools associated with A3 Strategy
- ◆ Check progress and gaps against plans and capture learning
- ◆ Connect A3 Strategy with A3 Plans and A3 Projects
