

### Need help creating your own internal training University?

Whether you are looking for help with onboarding or creating a continuous education program for current employees, we can create a program and schedule that fits your needs.

### Creating Problem Solvers and Leaders by the Masses

It's important to take the time to invest in your company's future. Hands-on, experiential workshops will give each individual the skills and tools to solve problems directly related to their position.

*"We have used the Manufacturers Alliance for on-site training many times over the years. We recently trained 33 individuals in the Supervision Fundamentals Certification. Manufacturers Alliance worked with us to develop training that would meet our needs. The instructors were excellent and engaged our people in incredible activities. We highly recommend the Manufacturers Alliance to all manufacturing organizations."*

Paul Johnson  
Health, Safety and Environmental Manager  
Aqseptence Group
