

# Visual Workflow for Product Teams

Improve your product development performance, team effectiveness, and speed-to-market

**Your instructor:**

*Steve Stucky* is a Product Development leader with over 20 years of experience in product development for Ingersoll Rand & Emerson Corporation business units. He has led the transition to Lean-NPD/Agile methods in multiple businesses and led a Lean Office Transformation effort for the Thermo King. Steve has had regional & global leadership responsibilities in Program Management, Product Management, & Strategic Marketing. Steve currently leads a global Project Management team for the Rosemount business in Shakopee.

Learn practical methods for leading cross functional teams through the steps of building and compressing a project plan, increasing team ownership and engagement in the projects plan. Learn different visual boards for managing various types of projects and practice Agile techniques for running effective stand-up meetings.

### Course Objectives

- Building a project plan and increase team engagement and commitment
- Methods for leading a team through a schedule compression activity and developing an estimate of confidence in the plan
- Connecting a compressed Project Plan to Risk Mitigation plans
- 5 different visual management board options for large NPD projects to task level work. Includes SCRUM and KANBAN methods
- How to run an effective stand-up meeting
- Change management in moving an organization to AGILE methods
- Discussion of “Work Rules” to help improve team effectiveness
- Practice SCRUM in a team based NPD simulation game

**Who Should Attend:** Company leaders responsible for implementing and improving product development practices; Engineers and managers responsible for development; Team members and Lean Leaders involved in NPD projects.
