

# Visual Management & 5S Improvements

Offered as part of the Lean Practitioner Certification

**About the instructor:**

**Jeff Meyer-Quarberg** is a Lean enterprise professional with experience leading and supporting the development and deployment of Lean in the electronics, aerospace, industrial, and automotive industries. He is employed at Boston Scientific as Principal Process Improvement Analyst.

*"A key takeaway from this workshop: changing how you think - identifying waste when walking through the facility or office"*

Steve Rice, Dir. Quality  
Hamon Deltak Inc.

Customers, employees and suppliers can tell a well-run plant and office without a narrated tour. The visual clues are everywhere. This is a straightforward approach that impacts your customer and employee image, productivity and sales.

**Visual Management & 5S Techniques**

The many facets of visual management and 5S can allow employees to show pride and organization in their area, give them performance feedback, provide incentive to hit their goals, illustrate what is expected of them and recognize a job well done. These techniques can help overcome language and reading barriers and boost learning retention too.

**These techniques include:**

- ◆ Visual display boards
- ◆ Visual control boards
- ◆ Motivating teams for higher performance
- ◆ Visual performance measurements
- ◆ Standard work boards
- ◆ Color-coding time savers
- ◆ Pictorial procedures
- ◆ 5S organizing and housekeeping

*All attendees participate in interactive team exercises that demonstrate, in a practical manner, the application of these improvement principles and techniques. A portion of the time will be spent on how to implement these principles in the office and a portion of the time will be spent on implementing these principles on the shop floor.*

**Tuesday, May 21, 2019 8:00 am – 4:00 pm**

**Fee:** MA members \$329 per person Non-MA members \$449 per person  
*Receive a 10% discount if you register 14 days prior to the event.*
