

# Reap the Benefits of Benchmarking

*“What we took out of the Manufacturers Alliance meeting has literally launched us to a new level for this year. Without the rich feedback, we would not have the vision or clarity for where we need to be for the upcoming year.”*

Dave George  
CI Manager

Host and present to a Manufacturers Alliance peer group. It will provide you with credible fresh perspectives, expert recommendations and relevant peer feedback. An outside pair of eyes will view your challenges from a different angle, invaluable in helping your company focus immediately on critical areas and challenge the status quo.

Manufacturers Alliance peer groups consist of Managers, Directors, and Executives from local manufacturing companies. Each peer group meets regularly to benchmark, share best practices and confidentially identify, discuss and solve common issues.

## **Over 20 peer groups to choose from:**

Production Management	HR Executives
Operations Management	HR Management
Senior Operations	Financial Executive
Executive Operations	Sales & Marketing
Lean Enterprise	Quality Management
Advanced Lean Enterprise	Product Development
Business Process Improvement	Supply Chain Management
Presidents	Warehouse & Distribution
Owners & CEO's	Safety Management
Continuous Improvement Practitioner
