

## Lean for Non OEM's

How can Lean concepts work when we don't mass produce parts?

- ◆ Contract Manufacturers
- ◆ Custom Manufacturers
- ◆ Job Shops
- ◆ Low Volume / High Mix

**About the instructor:**

**Brett Saburn** is the Manufacturing Engineering Manager at Bermo Inc, a contract manufacturer in the custom metal fabrication industry. Over the last few years, Brett has worked with upper management in figuring out how lean can work in their contract manufacturing environment.

*"Thank you for your presentation yesterday as our team extracted a lot of great information from it. As an OEM, I was very surprised".*

**John Hittle, Lean Manufacturing Engineer, Daktronics Inc.**

Learn how others have successfully applied Lean techniques despite low volumes or unpredictable demand. This half-day workshop is designed to share ideas and insights that fit your environment. Participants are encouraged to bring their "real world" issues and success stories for discussion. Topics and techniques that we will be touching on include...

- ◆ Cell Strategies
- ◆ Pull Systems
- ◆ Takt Time
- ◆ Miscellaneous Lean tools

**Who Should Attend:** Employees...

- ◆ That feel Lean will not work in their environment
- ◆ Who are struggling with how to apply Lean tools
- ◆ Who are looking for further ideas and benchmarking

**Wednesday, September 18, 2019 1:00 p.m. – 5:00 p.m.**
