

Key Performance Indicators with Impact

Do your metrics drive good behavior?

We all want direction and objective feedback and measurable goal(s) can provide that. But have you ever run into unintended consequences of a metric that hurt the performance of the team or an individual? Additionally, have you been using historical accounting measures to motivate current and future performance improvement? Join us to hear examples from manufacturing leaders outlining their best practices and lessons learned on developing metrics that matter.

Innovize Inc.

Scott Bliss, VP Operations

MultiSource Manufacturing

Joe Molesky, Dir. of Continuous Improvement
