

Project Management for Manufacturers

Bring an active project to customize for your business.

About the instructor:

Scottie Holmes- PMP is a seasoned project manager with over 20 years' experience. He has led domestic and global projects in Med device, IT systems, Facility start up and consolidation, Operations management and Lean Six Sigma. Scottie holds a BSE in Industrial Engineering from UMD, and is a Six Sigma Green Belt.

This course is about successful project implementation. Participants will study critical steps that highly impact effective projects.

Learn to:

- Develop plans, actions, budgets, and metrics to define success
- Establish realistic goals and schedules
- Effectively communicate project responsibility and deadlines
- Respond to workload and people problems in a timely and productive manner

After completing this Workshop participants will leave with:

- Scottie's Top Ten list for Project Success
- Examples of best and worst projects
- Tools to use right away to get and keep your projects on track
