

SAFETY MANAGEMENT PEER GROUP

A Community of Safety Professionals Committed to Providing Safe Working Conditions

Manufacturers Alliance
Sharing Education & Resources Peer to Peer

Gain insights for highly effective safety programs
Expand knowledge base by interacting with other professionals
Build a network of peers facing similar business challenges

TYPICAL CHALLENGES

- Developing and administering job safety analysis and risk assessments
- Supporting wellness initiatives and ergonomic design in the workplace
- Establishing behavior-based safety programs with environmental nudges
- Incorporating Lean practices with a safety focus for all team members
- Developing safety metrics and audits in a reliable record-keeping system
- Dealing with safety, cultural, and diversity challenges on the plant floor

"The benefits I receive from actively participating include a fresh eyes perspective for programs when we host, great benchmarking of world class programs, and networking with safety peers from all walks of manufacturing." - Katherine S., EHS Manager

HOW YOU BENEFIT

- Benchmarking tours to learn how peers implement safety programs
- Sharing best practices in a setting with candid and confidential feedback
- Access to online peer group forum and video library for personal growth
- Enjoy benefits of company membership, including free seminars
- Discounts for workshops, certification classes, and on-site training
- Resources and proven solutions to help you achieve goals
