

CONTINUOUS IMPROVEMENT PRACTITIONER PEER GROUP

A Community of Manufacturing Leaders and Practitioners Committed to Improving Processes

Manufacturers Alliance
Sharing Education & Resources Peer to Peer

Expand knowledge and networking base by interacting with other CI leaders. For certified practitioners, engineers, technicians, specialists, and coordinators to improve skills.

TYPICAL CHALLENGES

- Moving beyond CI tactics to build a CI mindset across the organization
- Developing teams of problem solvers that apply valid solution methods
- Applying the appropriate tools for the problem (RCA, DMAIC...)
- Energizing the organization to sustain continuous improvement
- Building a culture of excellence that views change as an opportunity
- Selecting the best metrics that indicate verified CI results

“Peer group meetings give me the opportunity to see best practices in action. I always leave the meetings with at least one good idea to take back to work. I find the meetings energizing and educational.”
- Jerry H., VP Operations

HOW YOU BENEFIT

- Sharing best practices with peers and subject matter experts
- Learning which methods to use and when for highest impact
- Access to online peer group forum & video library for professional growth
- Attend educational seminars at no charge (up to five from your company)
- Discounts for workshops, certification classes, and on-site training
- Resources & proven solutions to help you achieve your goals
