

Manufacturers Alliance
Providing Training & Education Peer to Peer

ADVANCED LEAN ENTERPRISE PEER GROUP

Expand knowledge and networking base with other Lean Leaders
Gain insights into how peers address key Lean issues
Share strategies and planning processes with other Lean leaders

TYPICAL CHALLENGES

- Moving beyond Lean tactics to build a Lean mindset
- Energizing the organization to sustain continuous improvement
- Building a culture of excellence that views change as an opportunity
- Developing teams of problem solvers that apply valid solution methods
- Selecting the best metrics that indicate verified Lean and CI results
- Setting the groundwork to be a responsible corporate citizen

"One member stated, 'You can always take away something positive from each meeting.'" This is exactly what this group is about: constant inspiration through learning new things and new ideas. This is why I am a member of this group." - Brett S, Manufacturing Director

HOW YOU BENEFIT

- Benchmarking tours to learn how peers implement Lean strategies
- Sharing best practices with peers with candid & confidential feedback
- Access to online peer group forum & video library for professional growth
- Peer group members may attend monthly educational seminars
- Discounts for workshops and certification classes
- Resources and proven solutions to help you achieve your goals
