Online Exam

Pass an online exam following the last workshop to demonstrate comprehension of materials.

Project

Submit one Six Sigma project to demonstrate measurable company benefits based on application of knowledge gained.

Online Tools & Templates

Templates are available online to help you apply the content.

Online Coaching

Coaching is available to help you apply what you have learned.

Program Fees

The program fee includes required workshops, exam, coaching, and project support and evaluation.

Member companies: \$1,550
Non-member companies: \$1,950

Develop a structured, data-driven approach to eliminate defects, decrease variation, and improve the customer experience. All attendees participate in exercises that demonstrate the application of Six Sigma improvement techniques and the DMAIC problem solving methodology. Certification may be awarded in as little as six months.

Topics:

- ◆ DMAIC Methodology
- ◆ Measurement system analysis
- ◆ Implementation techniques
- ◆ Data as a communication medium
- ◆ Six Sigma project definition
- ◆ Data collection and display
- ◆ Data analysis
- ◆ Sustainment practices

Four Half-Day Online Workshops:

- ◆ Six Sigma Define & Measure November 4, 2021
- ◆ Six Sigma Measurement & Analysis November 18, 2021
- ◆ Six Sigma Analysis & Improvement December 2, 2021
- ◆ Six Sigma Improvement & Control December 16, 2021

All workshops will be held from 8:00am – 12:00pm.

Registration: To reserve your space in the online program go to www.mfrall.com, click on Certifications, then Six Sigma Green Belt Certification.

This certification is online. Minimum requirements: Computer with speakers and/or headphones; dedicated screen for meeting time; Internet connection; ability to download Zoom.

Participants will use Minitab during the certification. Download a free 30-day trial version of Minitab at www.minitab.com the day before the first workshop.

"The 6 Sigma Green Belt Certification was a great experience. The workshops were led by credible instructors who provided real life insight into the 6 Sigma process and tools. The project allowed us to put the tools to work, make real world improvements, and gain first-hand experience."
