

# **ALIGNING YOUR MISSION STRATEGY & SCORECARD**

BROUGHT TO YOU BY:

**Manufacturers Alliance**  
Providing Training & Education Peer to Peer

# GUEST SPEAKER

**Charlie Garrett**, Instructor & Facilitator  
Manufacturers Alliance

- ✓ Process to Develop a Vision
- ✓ The 4 Parts to a Great Strategy Plan
- ✓ Linking Your Strategy to Scorecards

# **Aligning Your Mission, Strategy and Scorecard**

Presented by Charlie Garrett

# What is Strategy Deployment?

- Based on Plan-Do-Check-Act (PDCA)
- Everyone working toward the same ends
- Process to establish goals and measures
- Planning and implementation process
- 1 year plan reflecting 3-5 strategy objectives
- Linking process

**Also known as:**

*Hoshin Kanri*  
*Policy Deployment*  
*Management by Policy*  
*Management by Objective*  
*Strategic Deployment*

## 方針管理

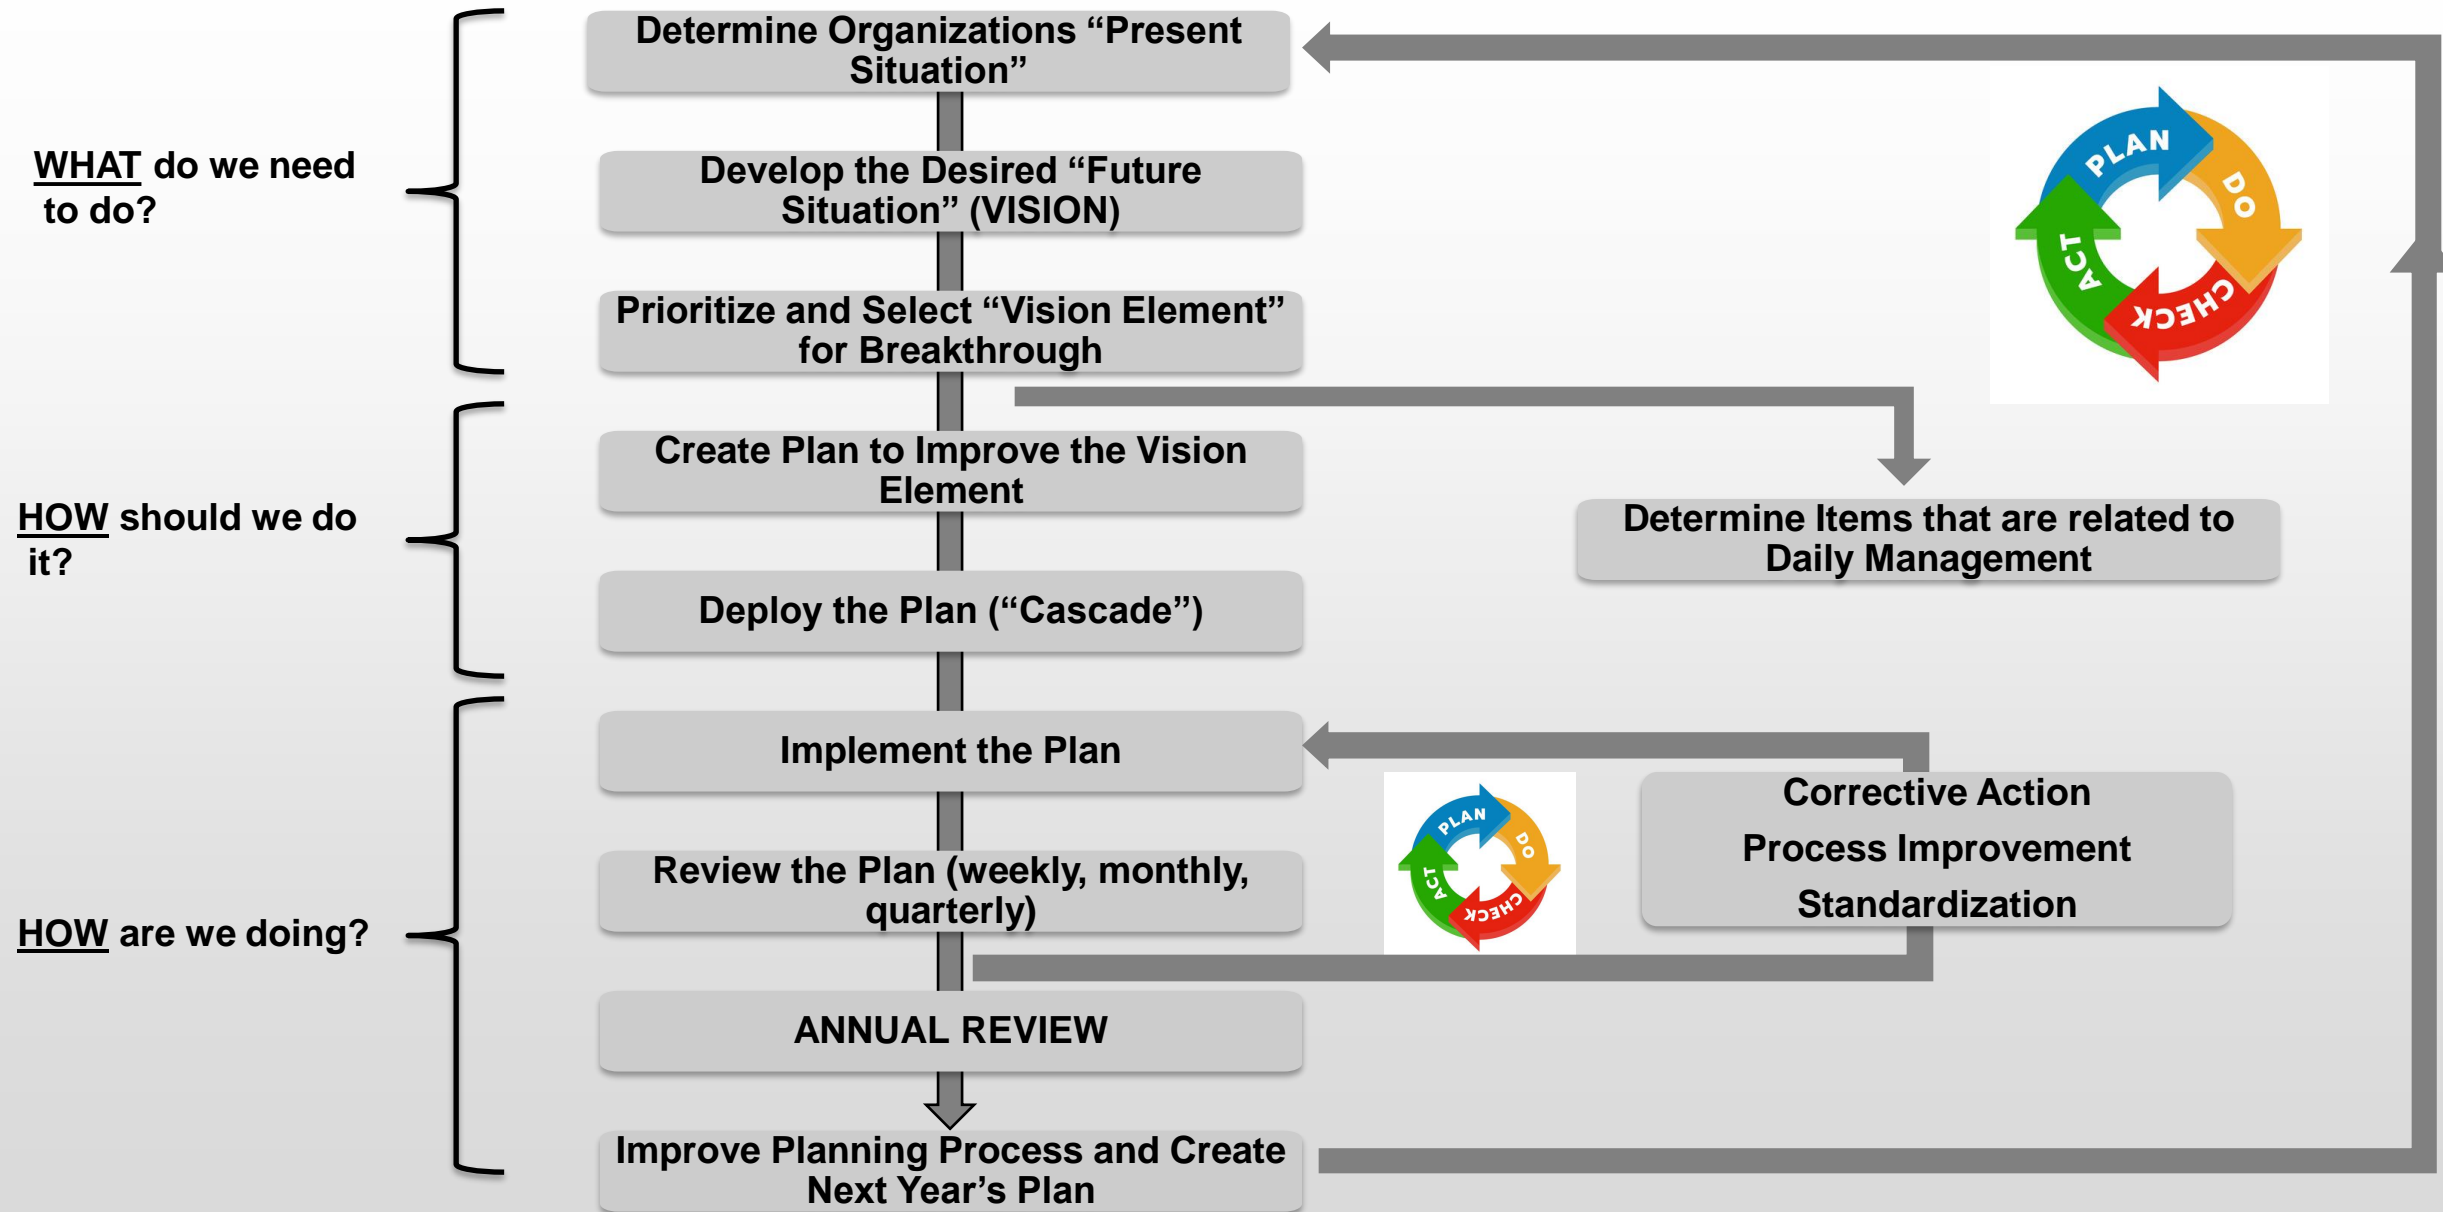

*Hoshin* = “Compass needle” “direction”

*Kanri* = “Control or management”

# Why use Strategy Deployment

1. Promotes the same corporate goals
2. Helps various departments to work together
3. Establishes performance measures
4. Develops implementation plans
5. Identifies needed resources
6. Provides a means to review & communicate
7. Facilitates Involvement and Continuous improvement

# The Present Situation

## Potential Sources

- Company strategy
- Corporate mission
- Product reviews
- Value stream maps
- Key process maps
- Stakeholder input
  - Customer, Employees, SMEs
- Market/Industry Analysis
- Direct observation
- Group meetings
- Documents/metrics/financial reviews

# The Visioning Process

*Vision: A statement, or a picture, of an ideal state of being or existence in the future that is inspiring and empowering for the stakeholders of the organization.*

## Why have a vision:

Process itself develops team

Shared expression of the future (unity, purpose)

Facilitates determination of strategic priorities and plans

Creates context for objectives (whole vs parts)

*“A task without a vision is drudgery”*

# Characteristics of a Good Vision

Deployment typically begins with the "visioning process"

- Where do you want to be in the future?
  - How do you want to get there?
  - When do you want to achieve your goal?
  - Who will be involved in achieving the goals?
- 
- Grounded in reality (challenges)
  - Should “create” some challenges or tension (Vision vs. Present)
  - Stakeholders can see themselves represented in the Vision
  - Shared expression of leadership team
  - Inspirational yet simple and focused
  - Values and measures should be kept out ... for now.

Example: An early Microsoft Vision Statement was

***“A computer on every desk and in every home”***

# Examples of Vision Statements

**Tesla: “To create the most compelling car company of the 21st century by driving the world’s transition to electric vehicles.”**

**Google: “To provide access to the world’s information in one click.”**

**Amazon: “To be Earth’s most customer-centric company, where customers can find and discover anything they might want to buy online.”**

**Zoom: “Video communications empowering people to accomplish more.”**

# Prioritize & Select “Vision Element” for Breakthrough

## Utilizing your Vision Statements as a source:

- Define specific “elements” and “breakthrough” results
- Vision Elements become the Strategic Objectives for deployment plan

## Utilize prioritization techniques to focus your direction and scope

- Stakeholder review
- Prioritization matrix

*“A vision without a plan is a dream”*

# Strategy Deployment Sample

# How

# How much

## Who

# What

[illegible]

# Management of Strategy Deployment

## **Based on the model of Continuous Improvement:**

- Plan- (Policy Matrix) Describes the goal and sets the target
- Do- (Action Plan) Sets out the actions to be taken to meet the target
- Check- (Targets / Bowling Chart) Did we meet the target?
- Act- (Countermeasures) If we did congratulations! If not adjust again

# The “Plan – Do – Check – Act” Process

## Plan (Policy Matrix)

Top Level Policy Deployment												
●	○	●	Reduce the Cost of Quality									
		●	Improve delivery performance									
○	●	●	Implement Proactive WC Improvement Processes									
○	●	○	Implement process to reduce cost									
		○	Increase distribution sales									
	○	○	Improve market share									
		●	Increase Identification of Organic Growth Opportunities									
											</	

## Do (Action Plan)

Policy Deployment Action Plan			
Annual Target	Reduce OSHA Recordable injuries by at least 20%	Value Stream	PSPD Panel Line
Value Stream Manager	Kevin Lillo	Date	9/10/2002
Review Team	Anderson, Kirby, Saylor, Blumenson	Next Review Date	9/26/2002
Core Objective	Provide a safe working environment for all associates of the business		
Goals	Activity Steps	Owner	Milestone Date
Short Term:			
Raise awareness about safety performance and	Post performance on WC communication board (Days since last, # to date, record days between)	Lauck	Tracker in use on WC Board P9
	Perform weekly safety audits	Supervisors	Weekly audits P8
	Identify and correct hazards discovered in kaizens	All	4 per Kaizen N/A
Ensure a safe workplace by incorporating safety into all our processes.	Identify and correct hazards about workcenter; ID & correct hazards	B. Deal	Full "sweep" P13
	Incorporate ergonomic improvements in challenging positions in new line design for 2003	CI Team	2003

## Act (Countermeasures)

### Policy Deployment Countermeasures

Area of Concern:	Productivity
Period 10 Plan:	32.4
Period 10 Actual:	23.5
Actual vs. Plan:	(8.99)
% Difference:	-27%
<b>Problem Description (Who, What, Where, When)</b>	
To date, 2 people reassigned through time assistance work	
Remaining challenges we need to manage closely:	
- Downtime averages 52 mins per shift, with a std dev of 63 mins	
- More C/O's due to leveled schedule	
- PTD changes account for nearly 300 days per year (+1 person)	
- 6S activities require 2-3 people to achieve targets	
- 3 people out on STD	
Net effect, CC223 carries 45 people to perform work requiring 36	
<b>Root Cause (Why)</b>	
Excessive DT reduces numerator.	
Excessive people in CC increases denominator.	
<b>Countermeasures &amp; Assignments</b>	
Install detacher Phase 2 (vacuums 4)	Jun/Jun
Continue methodical repair of equipment	JL/MBS/DH
Replace router bushings & shafts	M/DH
Carefully manage team meeting times	Teams
Finish intensive lean training of all people	JL/BD
Continue to emphasize need to meet plan	JL/BD

Period	Plan	Actual	% Diff	% of Plan
9	31.2	33.6	8%	108%
10	30.4	23.5	-22%	77%
11	33.6		-100%	0%
12	34.0		-100%	0%
13	36.0		-100%	0%
1			0%	0%
2			0%	0%
3			0%	0%
4			0%	0%
5			0%	0%
6			0%	0%
7			0%	0%
8			0%	0%
9			0%	0%
10			0%	0%
11			0%	0%
12			0%	0%
13			0%	0%

## Check (Progress Chart)

### POLICY DEPLOYMENT - PSPD Panel Assembly (CC: 223)

# Strategy Deployment – Plan

## Example: Policy Matrix Goals and Targets

[illegible]

Given our goals and targets, the next step is to develop our course of action

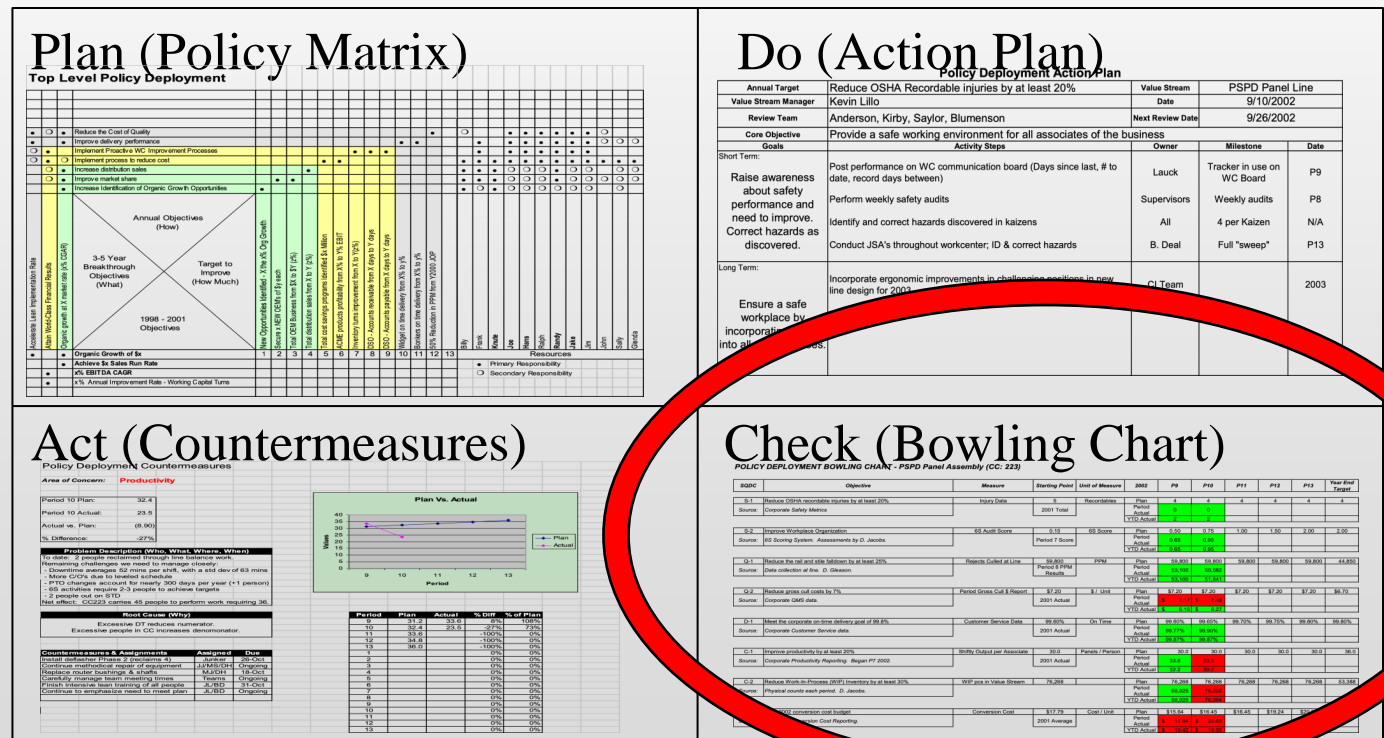

- [illegible]

# The “Plan – Do – Check – Act” Process

Our action plan is monitored (checked) using the Bowling Chart

This tracks how we are performing against the targets

- Plan: Target goals
- Do: Action plans
- Check: Bowling chart
- Act: Countermeasures

# Strategy Deployment – Check

Example: “Bowling Chart”

## Patio Door Plant

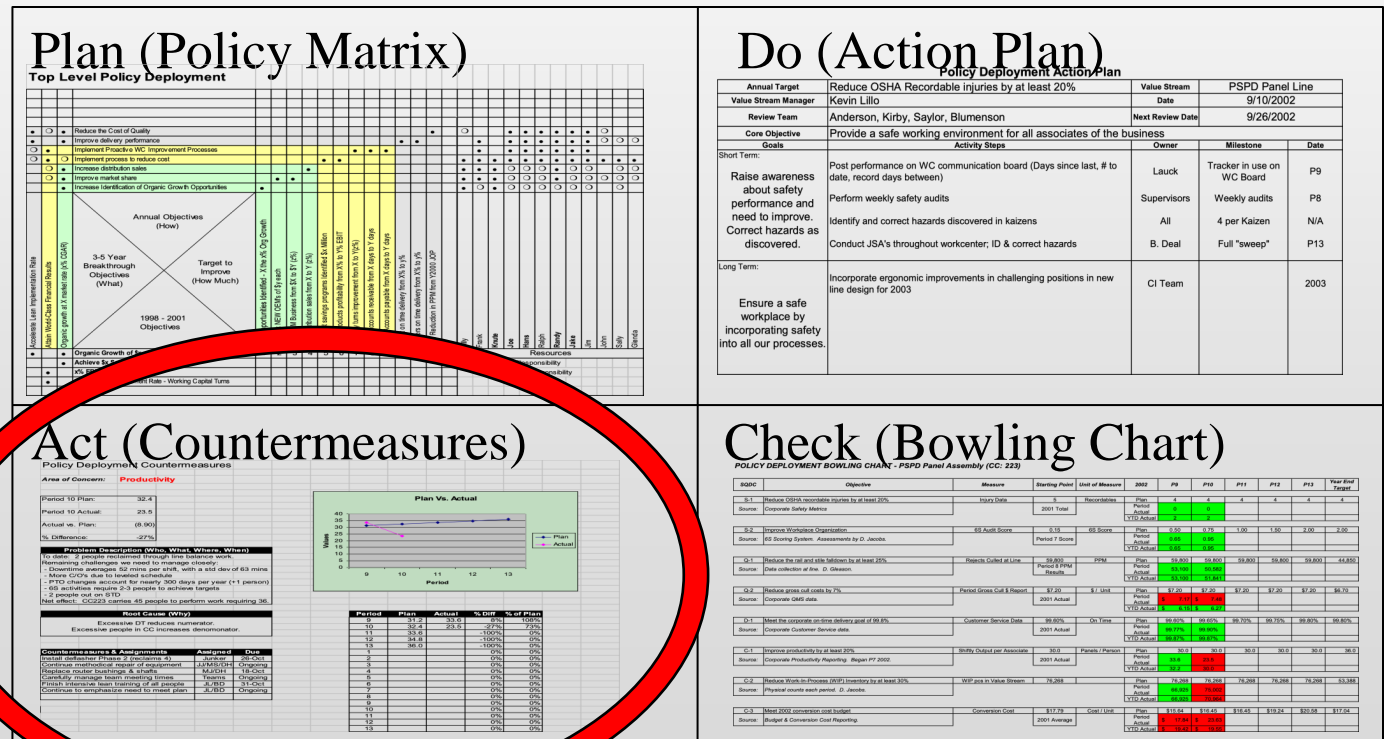

Period: P1

SQDC	Objective	Starting Point	Target %	Measure	Unit of Measure	2006	P1	P2				
Safety 1	Improve YTD Incident Rate (IR)	8.26	25%	OSHA Recordables/ 100 Associates	IR	Plan	8.10	7.94				
	Source: Corporate Safety Data					Period Actual	4.31	7.32				
						YTD Actual	4.31	7.92

	Source: Corporate Customer Service Data					Period Actual	936	755				
						YTD Actual	936	816				

# The “Plan – Do – Check – Act” Process

Countermeasures help to evaluate our success and what we need to adjust before acting again

- Plan: Target goals
- Do: Action plans
- Check: Bowling chart
- Act: Countermeasures

# Monthly Bowling Chart Review

- Occurs at each level
- Cross functional
- Countermeasures expected for any area that is red
  - Data driven (Top causes)
  - What is the plan to get back on track?
  - What support is needed?
- No need to spend much time on metrics that are green

# Lessons Learned

- Leadership support is critical
- Communication
- Take your time, be patient
- balance Fundamentals and Breakthrough activities (80/20)
- Plans and Objectives should be balanced (SQDC)

*Discipline and Coaching Drives Successful Strategy Deployment*
