DESIGN OF EXPERIMENTS

Learn how to use Design of Experiments (DOE) to identify critical variables, improve quality, and optimize process performance. In this hands-on workshop, participants use Minitab to design, run, and analyze experiments that drive faster, data-driven decision-making.

YOU'LL LEARN TO:

- ✓ How to identify critical process variables
- ✓ How to design experiments using Minitab
- ✓ Techniques to analyze DOE results
- ✓ How to optimize processes with data
- ✓ Ways to improve quality and performance

WORKSHOP FEE:
Members: $345 per person
Non-members: $445 per person

CUSTOMIZED TRAINING
Available to be brought onsite and customized to your needs.

DESIGNED FOR

Engineers, quality professionals, and CI leaders using data to improve processes.
